

COASTTEC APC UPS MODEL LINES

Back-UPS and Back-UPS Pro Models – 120V

Ideal for home office and workstation applications

- Ranging from 350VA – 1500VA
- Small, compact footprint
- Stepped approximation to sinewave waveform
- \$34 - \$144

Smart-UPS Models – 120V or 208/240V

Ideal for IDF network closets, servers, switches, routers and VOIP applications

- Ranging from 750VA – 5000VA
- Rackmount or tower orientation
- Sinewave waveform
- Scalable runtime
- Remote monitoring available via a network card
- \$125 - \$1,720

Smart-UPS RT Models – 120V or 208/240V

Ideal for MDF/IDF network closets, servers, switches, routers, VOIP applications and higher power consumption applications

- Ranging from 1500VA-10000VA
- Interchangeable rackmount or tower orientation
- Sinewave waveform
- Scalable runtime
- Remote monitoring available via a network card
- Online Double-Conversion topology
- \$608 - \$3,370

Accessories/Batteries

- Brand new OEM Replacement Battery Cartridges (RBCs)
- External battery packs for scalable runtime
- Step-down transformers
- Network Management Cards
- \$25 - \$805
